**JOB TITLE:** Web Developer  
**LOCATION:** Liverpool, City Centre  
**SALARY:** Dependent on Experience  
**REPORTS TO:** Head of Product Design and UX

#### PRIMARY PURPOSE

We are looking for a web developer to join a multi skilled team, developing our online gaming platform.

We are looking for an energised individual who can fit into our highly skilled team. They must have a thirst for the latest developments within UX and instil that attitude within their team. Their focus will be the delivery of intuitive and responsive user interfaces on a multitude of platforms and obtain expert knowledge in web development.

#### OUR PRODUCTS

We use the latest technologies, architectures and working styles to deliver an intuitive and responsive product on a multitude of platforms, including desktop, tablet and mobile viewports. We value cross-browser development and progressive enhancement.

In addition to our online platform, our estate comprises products of all types, ranging from Retail Kiosks and Screens to Native Mobile Apps and third party integrations.

#### OUR TECHNOLOGIES

Angular, Vue.js, Node.js, SASS, Webpack, Gulp, Git, Jenkins, Docker, Nginx

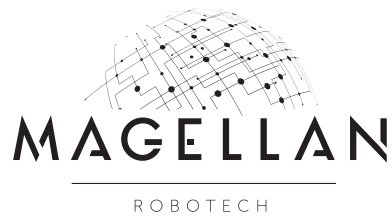

#### KNOWLEDGE, ATTRIBUTES, SKILLS

##### ESSENTIAL

- Experience, in production, with at least one of- Angular, Vue.js or React.
- Experience with using REST API's.
- Proficiency with Code Automation, such as Webpack, NPM, Gulp, Grunt and SASS.
- Experience with multi branch Source control, using GIT.

##### DESIRABLE

- Proficiency using unit testing.
- Experience with server side technologies: node.js/.net Core
- Experience with the Linux operating system, particularly Ubuntu or Debian
- Ability to work in an agile environment with fast response to change.

#### YOU WILL ALSO

- Be able to self manage, and work through your assigned tasks with minimal support.
- Liaise with other department and stakeholder throughout the product life cycle.
- Be comfortable tutoring and supporting other members of the team.
- Comfortable in a transparent environment with Code Reviews and Style Guides.

#### COMPANY AND WORKING CULTURE

You will be working at our European HQ, based in Liverpool City Centre, the environment is fast paced and dynamic, your colleagues will be people from all over the continent, reflecting our business reach across Europe.

Our team value a desire to maintain up-to-date knowledge and standards. The ideal candidate will be interested in UX/Design and Development theory, and they will be eager to share their knowledge with the team.
